

## Experience New !

In partnership with

## Experience New !

Replacement of a damaged, stained or dirty area or object doesn't come cheap. And then you also have to deal with breakage work: noise, dust, risk of side damage, disposal costs etc. Hotels have to close the area for a longer time. Etc.

In Partnership with Stone Care Europe we offer you over 25 years of experience and core-knowledge in restoring and protection of marble, granite and natural stone. We start where other stop.

### Hotel Safety Solutions

Hotel Safety Solutions is a professional organization based in the UAE since 2007, with international experience in the areas of treatments and natural stone care within the 5-star hotel industry.

Stone Care Europe SRL in Italy is the developer and producer for over 25 years of various restoring and protection products and methods for materials as marble, granite, slide, natural stone etc. All products are based on the European documented standards.

### Suitable for

- Brown water stains in marble by humidity lock-up.
- Mold in a humid environment with porous surface.
- Colour enhancement for natural, polished and honed marble and granite.
- Salt damp lime scale on polished, rough and honed textured surfaces.

### Restoring and protection of:

Stains, mold, decolourization, lime scale

### Suitable For:

- Marble
- Granite
- Slade
- Natural stone

## Restoring and the right protecting saves a lot !

**Saving Time:** Many clients are under time pressure: Hotels are dealing with occupancy, contractors are dealing with deadlines. HSS provide quick, clean and affordable services.

**Saving money:** Restoring saves money comparing to replacement. The right protection avoids future damage. New items are much more expensive, loss of income by closing down of the area, disposals.

**Saving annoyance:** a damaged, stained or dirty area or object can cause annoyance, especially within a beautiful and well organized environment as 5 star hotels.

**Save breakage work:** replacements of floorings, walls or items are not always easy. The area has to get closed for a while, noise, dust, workmen, risk of side damage etc.

**Save the environment:** no disposal of damaged items. HSS is using environment friendly products only. Restoring and the right protection saves a lot!
